

BY AUTHORITY.

Regulations of the Board of Health in
Regard to Tuberculosis in
Neat Cattle.

Section 1. The presence of tuberculosis in any animal, the flesh of which is likely to be used as food or from which milk is obtained for use or sale, is hereby declared to be a cause of sickness and a menace to public health and safety.

Section 2. All persons who shall have in their possession any neat stock shall, when requested so to do by an Inspector of the Board of Health, permit such animal to be examined for the purpose of determining whether or not it is affected with tuberculosis, and allow all necessary experiments or operations to be made or performed for such purpose.

Section 3. A suitable number of Inspectors of the Board of Health, for the purpose of examining all neat stock suspected of being infected with tuberculosis, may be appointed by the President of the Board when so authorized by the Board.

Section 4. It shall be the duty of such Inspectors to examine all stock suspected of being infected with tuberculosis; and to make such experiments or perform such operations as may be necessary to determine whether or not the animal is so infected.

Section 5. All animals which shall show symptoms of tuberculosis shall be condemned by such Inspector and destroyed; and no part of the carcass of such animal shall be used for food or disposed of in any other manner likely to endanger public health.

Section 6. In any case of doubt the Inspector shall forbid the further use or sale of the milk of said animal, and shall cause it to be kept separate from other non-infected animals; and before condemning such animal, shall summon for consultation with him one or more of his fellow Inspectors, and their decision in the case shall be final.

Section 7. The several Inspectors of animals shall keep a record of all animals inspected by them, and their decision regarding the same, and shall make weekly reports of their doings to the Board of Health.

Section 8. Said Inspectors of animals shall receive such pay as shall be voted by the Board of Health.

Section 9. These regulations shall take effect from and after the 15th day of April, A. D. 1897.

HENRY E. COOPER,
President of the Board of Health.

PROPER STAND.

Minister Cooper's decided and decisive stand against the incurring of debt by the Department of Education, over which he presides, will be unqualifiedly approved by all right-thinking citizens. While the not altogether unforeseen congestion of the schools is to be regretted, it is solely the province of the Legislature to provide against and for such an emergency. To have an executive branch of the Government making a virtue of necessity and creating expenditures in advance of legislative approval would be a vicious example. There is no knowing to what deplorable results such a precedent of one branch might tend in other spending branches of the Government. It is for the Legislature to hold every branch of the Executive down to the constitutional inhibition of unauthorized expenditure. How to the line, let the chips fall where they may. No indemnity bills!

There is reason to believe that every nation in Christendom will join some way in celebration of the event of Queen Victoria's longest reign of all the sovereigns in British history. Hawaii is not likely to be behindhand in joyfully proffering this courtesy toward a nation that has only been second to her nearest neighbor, the United States, in intimacy and friendliness of relations with her from even before the beginning of civilized government in these islands.

A letter has been received from Fred Harrison, contractor and builder, in contradiction of a local item in this paper stating that work on the Campbell block was delayed to await the arrival of material. It is too long at the hour received for insertion. The gist of the letter is that there is no such delay, but that from twelve to twenty laborers, besides white mechanics, are constantly employed by the writer on the building.

Representative Evans of Kentucky has fathered a resolution to terminate the Hawaiian reciprocity treaty. It is extremely doubtful if even his Democratic constituents will approve of his action. The House of Representatives will certainly sit on his ugly tempered baby.

It is pleasing to have such an influential paper of the great Northwest as the Tacoma Ledger come out squarely for the admission of Hawaii to the Union.

It may seem meet for Eastern capitalists to start new sugar refineries, but they will all be meat for the cormorant Trust in due season.

Original Bock.

The Warrimoo that is expected here April 16 from Victoria will bring a large consignment of Original Bock Beer for the Anchor Saloon. While there has been Bock Beer on the Honolulu market, it does not begin to compare with the consignment that the Anchor will have on tap after the arrival of the Warrimoo. The reason for this is that the Bock that has already arrived is too fresh. The Bock Beer in the States is made at the first of the year and kept till May 1. The consignment to arrive is some of the original beer and is guaranteed to be better than any Bock ever imported. Wait for it. It will be on tap at the Anchor after the arrival of the Warrimoo.

DEFENSE OF RECIPROCITY

BY A FINANCIAL JOURNAL OF SAN FRANCISCO.

Shows Absurdity of Opposition on Behalf of the California Beet Sugar Industry.

In its review of the financial situation the San Francisco Financial Letter of March 26 contains the two following paragraphs:

"An important article is printed in another column upon matters referring to the Hawaiian Islands and the Reciprocity Treaty. Personal ought to convince San Francisco commercial men, that any abrogation of the treaty would result in curtailing business in all branches to a disastrous extent."

"Sugar stocks that advanced during the early part of the week, declined at the close, owing to the unsettled feeling that prevailed relative to the Tariff Bill as well as the rumors that some attempts might be made in Congress to abrogate the Reciprocity Treaty with Hawaii. This latter idea is regarded as being extremely prejudicial to our interest, and will meet with every possible opposition from all having interests in the trade with the Hawaiian Republic."

From the "important article" referred to in the foregoing, the following extracts are taken:

"The product of the Islands, first rate sugar, produced by the investment of capital supplied by citizens of the United States, is transported to Atlantic ports upon American owned vessels when available, sold to American citizens for the purpose of refining, enters into competition with the millions of tons of beet sugars dumped into the United States from German and French factories; but in no wise competes with the cane sugar produced in the Southern States of the Union; and these offenses constitute reasons why in the opinion of the opponents of the Reciprocity Treaty the same should be abrogated."

"Considering the point, that the continuance of the Treaty will be inimical to the beet sugar interest of the United States, it is well known that refineries of beet sugar are at the present time in course of erection at Salinas, in Los Angeles county, and in both Western and Eastern States, establishments that will cost many millions of dollars, and if the owners of these large refineries had the least fear that the Hawaiian sugar would interfere with their business, it is very safe to assert that the expenditure would never have been made."

"The stern and well known fact is, that even if there was a large increase of beet sugar factories in the United States producing sugar, and the Hawaiian Islands produced a greater output of cane sugar than at present, the quantity would not suffice to supply the needs and demands of the people of this Republic. In fact the total production of the beet sugar in the United States, and cane sugar from Hawaii would not supply within eight per cent of the consumption."

"The merchants and manufacturers of the Pacific Coast are deeply interested in the future trade of the Hawaiian Islands, and while anxious to aid and sustain any project that will tend to develop the beet sugar industry, they cannot be oblivious that any attempt to abrogate the Reciprocity treaty with the Hawaiian Republic would mean a loss of a very large percentage of the exclusive trade now enjoyed by American citizens, who have invested in the Hawaiian Islands capital that exceeds tenfold that placed in beet sugar producing plants."

The Financial Letter copies an annexation article from a Los Angeles paper, giving credit thereto, which proves to be part of an editorial that originally appeared in the EVENING BULLETIN.

In the British Museum there is a queer and ancient love-letter, engraved on a brick. It is a proposal for the hand of an Egyptian princess, and is about 3500 years old.

J. T. WATERHOUSE

The "Australia" takes away orders for delicacies which we have introduced to the Honolulu public and which find places on the tables of the epicures of Honolulu.

Tinned Goods, many of them, but they are prepared so capably that they surpass even the fresh goods. The demand for these special lines is growing mainly because of the care taken in the factories where they are put up. The material is carefully selected and only the best is sent to Honolulu.

We have now on our shelves and ready for delivery the Epicurean Brand Vienna Sausage, Shrimps with Tomatoes, Baked Beans with Tomatoes, Lobster and Lunch Oysters; for the table no better goods have ever been brought to the islands.

We have also a superior quality of Ground Chocolate and Schilling's Best Teas and Spices; Crackers and Fancy Biscuits.

Telephone orders for these goods will have immediate attention. Our wagon is always on the go for the accommodation of our customers.

Timely Topics

The arrival of the last Australia was greeted with a sigh of relief from the whole community. The unusually long interval between mails had made people quite anxious, and rumors of war and other political disturbances were flying as thick as leaves in Vallambrosa. The encouraging news of the probable passage of the Dingley bill, imposing a duty on all foreign sugars while preserving for Hawaii the advantages of the Reciprocity Treaty, gladdened the hearts of all, planters as well as merchants, who predict a new era of prosperity and progress for these beautiful Isles of the Pacific. News was also brought of the knocking out of Champion Jim Corbett by his sturdy opponent Fitzsimmons.

The "TRIBUNE BICYCLE" knocks them all out. Like the Roman tribunes of old, it stands on a pinnacle of fame, elevated above all others, and like Fitzsimmons it beats all the other champions.

The '97 MODEL is the acme of perfection in wheels; it has no equal. We received a number of them by this Australia and can furnish them in black, royal, blue or maroon.

The Sager Pneumatic Saddle is recognized as the best for ease and comfort; no disease of the spine or jar to your nerves if you ride this saddle.

The STODDER PUNCTURE-LESS TIRE is impenetrable by glass, nails, thorns, pins, etc., and yet it retains all the elastic and resilient qualities. Every tire guaranteed for one year.

In addition to the above we handle the Zimmy, Stormer and other bicycles and carry a full line of M. & W. Tires, Rims, Handle Bars in wood and nickel, Bells, Cyclometers, etc., etc.
